

DIY - Because We Can!

Justin: Welcome to DIY - Because We Can! With Justin Time and Ralph Mcbook. Today we are going to how to breathe some into some old pannier bags.

Ralph: That is a old bag.

Justin: on, Ralph.

Ralph:?

Justin: As you can, it's terribly, and the cloth's all limp and

Ralph: How have you them, Justin?

Justin: Oh, it must be about now. They've really good, and they've always out in the elements; rain and They've been out there.

Ralph: Are they?

Justin: No, not really. Never have been, but they ! Just to give you an of how far they have, take a at this.

Ralph: Wow! Did you do that with the?

Justin: No, Ralph. Don't be; this is a

Ralph: Well, if you've got some, why are you painting the?

Justin: Well, Ralph, I have a If I buy something, I always buy one, but because it was five years ago, I I had them.

Ralph: You boy.

Justin: Anyway, we're going to be using this Rubber paint by Zeque.

Ralph: Is that how you it?

Justin: I have, Ralph. Probably not. Many other brands are also available. first, Ralph?

Ralph: Yes, don't to wear a mask, some, and

Justin: First of all, the bag with any old, just to give it some

Ralph: The, Justin.

DIY - Because We Can!

Justin: Oh, yeah. It's best to do this job because the paint is cellulose based and it! Choose a day with no of course. And a slight is okay. But wind is a no-no because it will all the paint from the job.

Ralph: Don't forget to close and cover all the because if you don't, they will never

Justin:, Ralph. Thank you very much.

Ralph: You should also the can of paint for a few minutes before you start the job.

Justin: Yes, I did that before we started the video. So the wants to be very thin, just to allow the paint to key into the Don't try to cover everything with the

Ralph: What about the, Justin? The last time I tried to something, I got in a right old; runs everywhere.

Justin: Well, I'm not great at this, and there will be many out there me. But there is one very rule. When you the nozzle, your hand must be You can see that my hand is constantly when the paint is coming If you are not, you will get far too much paint in one, and then you will get runs.

Ralph: What do you, don't paint the flap?

Justin: The flap is the of the bag where you things in. If you paint this, it may make it to things in the bag later. This is rubber paint. And it really does things.

Ralph: It's really great to see all that stuff disappearing the paint.

Justin: Yeah, and this is just the first is very light. We are not even trying to everything. This rubber paint is great stuff. It has many very properties, and it's not I paid about \$10 for two cans 400 ml, and it will about one can per bag. That's one coat, a coat, and some up.

Ralph: I've seen some on Youtube where people have their whole car.

Justin: Yeah, that's another about this paint. If you're painting onto and you make a mistake, you can peel and try again. You can't do that with material though like we're doing. That's going to like glue. Okay, so we'll just look for any that we might have And we're going to let it for about ten or fifteen minutes.

Ralph: Is that all?

Justin: Well, that's what it says on the Okay, now the second is going to go on much We are trying to cover everything now. Just make sure that your hand keeps when you're pressing the

DIY - Because We Can!

Ralph: All the on the pannier bags are making it much to move around.

Justin: Yeah, this is to be a really easy job. I think could do this.

Ralph: Put your on the gas, Justin.

Justin: Good idea, Ralph. We don't want this to go on, do we?

Ralph: That's better!

Justin: And you can see, I'm really it on quite thick now, and as well. And it's no for this paint at all. Oh, I've just remembered a paint My friend is a painter. And he tried to take a can of paint to another country in his check-in Yeah, he was in Amsterdam and when his came through onto the carousel, the paint had opened, and there was paint out of his bag

Ralph: What did he do?

Justin: Well, he wanted to just walk away. it wasn't his bag, but it had his on it. So he took it off the and took it to the toilet and tried to it A trail of paint him to the restroom.

Ralph: What a!

Justin: So he all his clothes into a polythene bag because they were, and tried to himself with toilet paper. But the paint was, so it was all to him.

Ralph: Did he get?

Justin: No, the police let him go. I don't think they wanted on their

Ralph: Hey up!

Justin: Save some paint for later. Don't empty the can you'll need it to Sorry about the digression, folks. So leave the bag to dry for about or minutes. And now, we're just looking for where the paint might be a bit parts that we might have, and just up generally.

Ralph: Are you wearing a, Justin?

Justin: No, Ralph, I'm my breath. I used to be a deep-sea, diving for pearls, so we learned how to our breath for minutes at a time. Anyway, there is a nice taking the paint from me.

Ralph: Oh, yeah. I see what you You're, Justin.

Justin: Well, I'm not just a you know, Ralph There we go, just a not to paint the flap. It'll make things to get in and out of the

DIY - Because We Can!

bag if we do that. Well, I think that's just about, and we are running very on paint just about now. So let's put it up to dry, and leave it to give the paint time to cure

Ralph: It's got a really nice mat-black

Justin: Yeah, and the paint's really put some back into the cloth. But still One of the bags was in really bad But you can see how the paint has the fraying.

Ralph: Rubber paint. It's.....!

Justin: So here we go. They're on the, and I think they look great!

Ralph: Yeah, Justin. I think they're! By the way, is that a Bridgestone you've got on there?

Justin: Yeah, why?

Ralph: Well, everybody knows that Bridgestone makes crappy bikes.

Justin: It's an anti-theft Nobody's going to a Bridgestone. Giving it a good here.

Ralph: Give it some welly.

Justin: A good strong; and is it going to come? Oh, yes. It's brilliant!

Ralph: It's really Okay, everybody, so thanks for watching our first DIY video. Hope you enjoyed it and you find it very Please like, share,, dislike ...

Justin: Come on, Ralph. Stop the Youtube prima donna. You know nobody the video to the end anyway.

Ralph: They
